Native Script + Mobile Mind Plugins

Configurações dos plugins:

NativeScript Google Maps

<https://github.com/mobilemindtec/nativescript-google-maps-sdk>

NativeScript Facebook

<https://github.com/mobilemindtec/nativescript-facebook>

NativeScript Google Plus (Google Login)

<https://github.com/mobilemindtec/nativescript-google-plus>

NativeScript Alarm Notifications (alarme e notificações)

<https://github.com/mobilemindtec/nativescript-alarm-notification>

Android

Em `app/App_Resources/Android/app.gradle`, dentro de `defaultConfig`, adicione:

```
applicationId = "br.com.mobilemind.myapp"
```

Em `app/App_Resources/Android/AndroidManifest.xml` adicione:

```
<activity
    android:name="com.facebook.FacebookActivity"
    android:configChanges="keyboard|keyboardHidden|screenLayout|screenSize|orientation"
    android:theme="@android:style/Theme.Translucent.NoTitleBar"
    android:label="@string/app_name" />

<meta-data android:name="com.facebook.sdk.ApplicationId"
    android:value="@string/facebook_app_id" />

<meta-data android:name="com.google.android.geo.API_KEY"
    android:value="@string/nativescript_google_maps_api_key" />

<provider
    tools:replace="android:authorities"
    android:authorities="${applicationId}.google_measurement_service"
    android:name="com.google.android.gms.measurement.AppMeasurementContentProvider"
    android:exported="false" />

<receiver
    android:name="br.com.mobilemind.nativescript.alarmnotification.BootstrapAlarmReceiver"
    android:exported="true">
    <intent-filter>
        <action android:name="android.intent.action.BOOT_COMPLETED" />
        <action android:name="MY_APP_BOOTSTRAP_ALARM_RECEIVER" />
        <category android:name="android.intent.category.DEFAULT" />
    </intent-filter>
</receiver>

<receiver
    android:name="br.com.mobilemind.nativescript.alarmnotification.AlarmReceiver"
    android:exported="true">
    <intent-filter>
        <action android:name="MY_APP_ALARM_RECEIVER" />
        <category android:name="android.intent.category.DEFAULT" />
    </intent-filter>
</receiver>
```

Em `app/App_Resources/Android/values/strings.xml` adicione:

```
<string name="facebook_app_id">my facebook app id</string>
```

```
<string name="nativescript_google_maps_api_key">my google maps app id</string>

<!-- alarm manager plugin https://github.com/mobilemindtec/nativescript-alarm-notification -->

<string name="bootstrap_alarm_manager_query">select id, lembreteAt, title, 1000 * 60 * 60 from books where lembrete = 1 and
delivered = 0</string>
<string name="bootstrap_alarm_manager_database_name">books.db</string>
<string name="bootstrap_alarm_manager_database_version">1</string>
<string name="bootstrap_alarm_manager_database_datetime_format">YYYY-MM-DD HH:mm:ss.SSS</string>
<string name="bootstrap_alarm_manager_notification_title">Devolução de livro</string>
<string name="bootstrap_alarm_manager_notification_text_normal">Não esqueça de devolver o livro %2$s</string>
<string name="bootstrap_alarm_manager_notification_text_atraso">0 livro %2$s está com a devolução atrasada!</string>
<string name="bootstrap_alarm_manager_notification_small_icon">icon</string>
<string name="bootstrap_alarm_manager_default_action">MY_APP_ALARM_RECEIVER</string>
<!--
<string name="bootstrap_alarm_manager_notification_large_icon">icon</string>
-->
<string name="bootstrap_alarm_manager_notification_sound"></string>
```

Em **build.gradle** adicione em **buildScript > dependencies**

```
classpath 'com.google.gms:google-services:3.0.0'
```
