

## ARTIGO: 11631

### XCode 8 + Swift 3 + Pods + IQKeyboardManagerSwift No such module

Error:

```
No such module 'IQKeyboardManagerSwift'
```

Add in Podfile

```
pod 'IQKeyboardManagerSwift', '4.0.10'
```

In Build Settings search by "Framework Search Path" and change add:

```
$PODS_CONFIGURATION_BUILD_DIR/IQKeyboardManagerSwift
```

Like this:
