

Atualizar certificados Apple Store

Para gerar os certificados de desenvolvimento e produção na Apple Store:

1. Verificar se não tem mais certificados criados na Apple e Localmente
2. Usar o mesmo certSigningRequest para produção e desenvolvimento
3. Remover todos os certificados e chaves referentes ao dados antigos (se houver)
4. Atualizar os Provision Profile de todos os apps com os novos certificados
5. Configurar o Xcode conforme imagem abaixo

Display Name	4GYM
Bundle Identifier	br.com.mobilemind.gym
Version	1.7
Build	7

▼ Signing

Automatically manage signing
Xcode will create and update profiles, app IDs, and certificates.
