Dart filter number from string

Dart filter number from string

```
var toPhone = (phone) {  
  var regex = new RegExp("(\\w+)");  
  var results = regex.allMatches(phone).map((m) => m[0]).toList();  
  return results.join();  
};  
  
var phone = toPhone("(54) 999.767.081");
```
