S3 Recover all deleted files

Actionsript Code

```
#!/bin/bash

aws s3api list-object-versions --bucket bucketName --prefix prefixName --output text | grep "DELETEDMARKERS" | while read obj
do

    KEY=$( echo $obj | awk '{print $3}')
    VERSION_ID=$( echo $obj | awk '{print $5}')
    echo $KEY
    echo $VERSION_ID

    aws s3api delete-object --bucket app-pocket --key $KEY --version-id $VERSION_ID

done
```
